

Privacy Policy

Version 1.0 — January 31, 2025

1. Introduction

SpeakApper AI ("we", "us" or "our") is committed to protecting and respecting your privacy. This Privacy Policy explains how we collect, use, store, and disclose your personal information when you use our mobile application and website (collectively, "SpeakApper AI"). By using SpeakApper AI, you agree to the collection and use of your personal data as described in this Privacy Policy. If you do not agree, please discontinue use of the application immediately.

2. Information We Collect

We only collect data necessary for SpeakApper AI to function effectively as a speech-to-text transcription and AI text editing service. The data we collect includes:

- **Basic Account Data:** You can use SpeakApper AI without creating an account. In this case, a randomly generated user ID is assigned to you, which is not linked to any personal identifiable information.
- **Optional Account Data:** If you choose to create an account, we collect your **name** and **email (Gmail)** to store your recordings securely and sync your data across multiple devices. Your email is used solely for account recovery and authentication purposes.
- **Audio Recordings:** When you record audio using SpeakApper AI, we store those recordings along with their transcriptions in our database to allow access from multiple devices.
- **Microphone Access:** We require microphone permissions to enable voice recording functionality.

3. How We Store and Secure Your Data

- All user data, including recordings and transcriptions, is stored in **Firestore** cloud storage.
- Currently, we do not apply encryption to stored audio recordings. However, we take standard security measures to protect your data from unauthorized access.

4. Processing Your Data

- SpeakApper AI relies on **OpenAI API** for speech-to-text transcription and AI-based text processing (e.g., summarization, rewriting). When you request a transcription, your audio data is sent to OpenAI's servers for processing.
- OpenAI does not retain or use your data for any other purposes beyond providing the requested service.

5. User Rights and Data Deletion

- You have the right to access, correct, or erase your personal data.
- You can delete all stored recordings at any time by navigating to **Settings > Data Management > Delete All Recordings** within the app.

- You can delete your SpeakApper AI account, including all related data, in **Settings > Account > Delete Account**. Once deleted, your data cannot be recovered.

6. Changes to This Privacy Policy

We may update this Privacy Policy periodically. Any changes will be posted on this page with an updated revision date. Continued use of SpeakApper AI after such modifications constitutes acceptance of the revised policy.

7. Contact Information

If you have any questions about this Privacy Policy, please contact us at:
